

**Course:    Administrating BusPlanner Web**

Duration:    1 day

**Overview**

The purpose of this course is to equip students with the tools and techniques that you will need to install, set up, and maintain BusPlanner Web. The course assumes that you have had exposure to working with BusPlanner Web, and that you understand web applications and the basics behind how they work.

**Goals**

To provide a working knowledge of the following tools and/or tasks:

- Site installation & setup
- Web.Config options
- Refresh Database scripts
- GeoIMS service & console
- Administration of BusPlanner Web

**Audience**

This course is designed for managers, administrators, and senior technical staff looking for a comprehensive understanding of BusPlanner Web and its features.

**Prerequisites and recommendations**

Students should have completed "Introduction to BusPlanner".
