

Administrating BusPlanner Web

Duration: 1 day

Overview

Each year, transportation offices rely more and more on web-based strategies to communicate with schools, drivers/operators, and parents. BusPlanner Web is a powerful, proven tool that can exponentially reduce phone calls to your office and improve communication with your stakeholders.

This course will equip you with the tools and techniques needed to manage BusPlanner Web for your organization. You will see how BusPlanner Web works “behind the scenes”, understand the key tools available to both parents and professional users, and learn how to customize the site to reflect the specifics of your district.

If you need to know how to maximize BusPlanner Web in your context, this is the course for you.

Goals

This course provides a detailed look at the following topics:

- The BusPlanner Web IT environment
- Public & parent portals
- Tools for schools, drivers/operators, and transportation staff
- Managing bus notifications & subscribers
- Customizing BusPlanner Web to meet your needs

Audience

This course is designed for managers, administrators, and senior technical staff looking for a comprehensive understanding of BusPlanner Web and its features.

Prerequisites and recommendations

Students should have completed “Introduction to BusPlanner”.
